

SKILLS

Languages & Frameworks

- Python
- Django
- FastAPI
- Flask
- Django REST Framework
- ORM
- HTML
- CSS
- JavaScript
- React

AI / LLM / GenAI

- LLM
- RAG
- LangChain
- Agentic AI
- Multi-Agent System
- HuggingFace
- Ollama
- ChromaDB
- Gradio
- QLoRA
- Modal
- Prompt Engineering
- Embeddings
- Vector Database

Cloud – AWS

- EC2
- S3
- Lambda
- RDS
- IAM
- EBS
- ASG
- VPC
- CloudFront
- Route 53
- Boto3

Databases

- MySQL
- SQLite3
- PostgreSQL
- ChromaDB

Data & Libraries

- Pandas
- NumPy
- Jupyter Notebook
- Google Colab

DevOps & Infrastructure

- Docker
- Kubernetes

Hyderabad, India 500081

SUMMARY

Sr. Python Backend Developer with **7.4 years** of IT experience (**6.4 years** relevant), specializing in Django, REST APIs, and AI-powered backend systems. Hands-on expertise in LLM integration, Retrieval-Augmented Generation (RAG), LangChain, Agentic AI, and multi-agent systems using Hugging Face, Ollama, and ChromaDB. Proficient in AWS (EC2, S3, Lambda, RDS), Docker, Kubernetes. Experienced in delivering production-grade solutions in Agile environments at scale.

EXPERIENCE

04/2024 - 05/2026

Sr. Python Developer

Cognizant Technology Solutions , JP Morgan(Client) |

Hyderabad, India

Decom Automation Tool | Python · Django · REST API · SQLite · ServiceNow · Agile.

- Built a Django-based web application to automate the decommissioning of enterprise assets (servers, databases, and SAN/NAS storage) across multiple business units.
- Designed RESTful APIs and CRUD operations using Django MVT architecture, enabling seamless integration with downstream systems.
- Integrated ServiceNow (SNOW) to automate work order generation and manage the complete asset retirement lifecycle from creation to closure.
- Processed enterprise asset data from Verum and collaborated with cross-functional Agile teams to deliver enhancements, and maintain application stability.

08/2022 - 03/2024

Sr. Python Developer

Cognizant Technology Solutions, JP Morgan(Client) |

Hyderabad, India

Piscataway Platform | Python · Flask · Tableau · Control-M · DR/SR · GitHub · Automation

- Built Flask-based applications for Hartonworks and VAPVSI server management platforms handling data centre operations across Ashburn and Piscataway.

- Linux
- Git
- CI/CD

Testing

- Unit Testing
- pytest
- Jest

Project & Collaboration

Tools

- Postman
- Jira
- Confluence
- Agile
- Scrum

Internal / Domain Tools

- Verum
- Prime
- Jules (CI/CD)
- Dev Shell, PyCharm
- VS Code, MySQL Workbench

EDUCATION

2018

JNTU Kakinada | Guntur, AP
Bachelor of Technology:
Electronics and
Communications Engineering

- Percentage: 68.2%

2014

**Board of Intermediate
Education AP** | Mangalagiri,
AP
Intermediate: MPC

- Percentage: 84.2%

2012

**Board of Secondary
Education AP** | Pedaparimi
Board of Secondary Education

- CGPA: 8.5 / 10

- Executed DR (Disaster Recovery) and SR (System Resiliency) activities, managing primary-to-secondary server failover and switchback processes.
- Migrated Tableau dashboards and Control-M jobs, ensuring uninterrupted data pipeline and job scheduling continuity post-migration.
- Executed full codebase migration from Bitbucket to GitHub, maintaining version control continuity across active development workflows.

01/2019 - 08/2022

Software Engineer

Accenture | Hyderabad, India

MD Survey & AIL CAL | Python · Django · MySQL · SQLite3 · MVT Architecture

- Built internal survey applications for Accenture Managers and Senior Managing Directors with policy feedback sections and automated certificate generation upon completion.
- Developed server-side business logic using Django Views, SQLite3 for lightweight operations, and MySQL for persistent data management with Django Templates for frontend rendering.

LLM/RAG/AGENTIC AI PROJECTS

- **Enterprise RAG Platform** | Python · LangChain · RAG · ChromaDB · HuggingFace | 2025

Built an enterprise knowledge assistant with hybrid document retrieval, citation-based responses, and secure multi-user access.

- **AI Cinematic Video Generation Platform** | Python · HuggingFace · Generative AI | 2026

Developed an end-to-end text-to-video system converting scripts into cinematic videos using open-source diffusion models.

- **AI Interview Preparation System** | Python · LLM · LangChain · RAG · Gradio | 2026

Built an AI interview platform with resume parsing, voice-based mock interviews, and automated candidate performance evaluation.

- **AI Coding Agent Platform** | Python · LangChain · LLM · Multi-Agent · FastAPI · GitHub API | 2026

Built an autonomous AI coding assistant with multi-agent workflows, GitHub integration, and intelligent code generation.

- **AI Security & Face Recognition Attendance System** | Python · OpenCV · DeepFace · PyTorch | 2025

Developed a real-time facial recognition attendance system with liveness detection, anti-spoofing, and edge AI deployment support.
